PROFESSIONAL SUMMARY

Recent B. Tech graduate in Artificial Intelligence & Data Science with hands-on experience in Java Full Stack Development, SQL, and database-driven applications. Skilled in Java, JDBC, Servlets, HTML, CSS, JavaScript, and MySQL through academic projects and internships. Strong problem-solving abilities with a passion for software development, learning new technologies, and building reliable applications.

TECHNICAL SKILLS

Languages: Java, Python, SQL

Frontend: HTML5, CSS3, JavaScript

Backend: Core Java, Advanced Java, JDBC, Java Servlets, OOP

Database: MySQL | **Tools:** Git, GitHub, VS Code

Other: SDLC, Database Design, Problem Solving, Team Collaboration, Microsoft Excel, Power BI

EDUCATION DETAILS

Bachelor of Technology (B. Tech) – Artificial Intelligence & Data Science

Kandula Obul Reddy Memorial College of Engineering, Kadapa | 2022–2026 | CGPA: 8.3/10

PROJECTS

1. TastyTap – Online Food Delivery Application

Technologies Used: Java, JDBC, Servlets, HTML5, CSS3, MySQL, Git, GitHub

- Developed a full-stack food delivery application with restaurant browsing, cart management, and order placement features.
- Designed and integrated a MySQL database using JDBC for efficient data management.
- Implemented user authentication, session management, and backend business logic using Java Servlets.
- Applied OOP principles to create reusable and maintainable application components.

2. Credit Score Predictor & Risk Assessment

Technologies Used: Python, Scikit-Learn, MySQL

- Built a machine learning model to assess customer creditworthiness with approximately 85% prediction accuracy.
- Performed data preprocessing, feature engineering, and model evaluation on structured financial datasets.

3. Rice Type Classification Using CNN

Technologies Used: Python, TensorFlow, OpenCV

- Developed a CNN model for rice variety classification and achieved approximately 92% accuracy.
- Applied image preprocessing and optimization techniques to improve model performance.

INTERNSHIP EXPERIENCE

1. AI & Machine Learning Intern | SmartBridge (APSCHE)

- Developed and evaluated machine learning models using Python and Scikit-Learn.
- Worked on data preprocessing, feature engineering, and practical analytical problems.

2. Quantum Computing Intern | SkillDzire

- Learned quantum computing fundamentals, quantum gates, and algorithms.
- Explored emerging computational technologies and strengthened technical problem-solving skills.

ACHIEVEMENT

Ranked among the Top 2 performers in the B. Tech Artificial Intelligence & Data Science program.
